Engineered for Comfort.
Built for Precision.

Reliability you can count on

The management of WellTek Global Innovations has over 30 years of expertise in designing and manufacturing high-quality dental chairs. With thousand's of successful installations nationwide, we are a trusted partner for dental professionals, known for reliability and excellence.

Our products are built for durability and consistent performance, even in the most demanding clinical environments. WellTek takes pride in a strong track record of customer satisfaction, delivering solutions that meet the real-world needs of dental practices.

We offer customizable options and a wide range of specifications to ensure the perfect fit for every clinic. With transparent and competitive pricing, our team is committed to providing genuine value without compromising on quality.

- Maximum Safe Load Capacity: 150 kg (330.7 lbs)
- Tested Load Capacity: 150 kg, even under the most unfavorable chair positions.

- *Built on trust, delivered through every installation.*
- *Over 30 Years of Expertise*
- *Customized solutions tailored to your unique requirements*
- *Comprehensive After-Sales Support*
- *Wide range of specifications at competitive and transparent pricing*

RELIABILITY-CENTERED
MAINTENANCE

SKD Stylus

Dental LED Operation Lamp Oral Light

Yellow lights prevents the resin from curing too quickly

White lighting delivers brightness that mimics natural light conditions.

- 6 LED bulbs as the light source
- Color Temperature: 3500-5000K
- Customizable Illumination Control
- Power:6W
- Illumination: 8000-30000LX

Professional Seating Solution

High-comfort stool with ergonomic backrest and smooth height control.

Advanced Dental Instrument Tray

Spacious instrument tray with integrated control panel for seamless operation.

LED Lights

6 sensor LED's with adjustable intensity

SKD Superb

LED Lights

4 sensor LED's with adjustable illumination

Assistant Side Tray with Integrated Controls

Provides convenient access to instruments and essential functions, enabling smooth assistance during procedures.

Ultra-Quiet 24V DC Motor for Backrest Adjustment

Ensures smooth, silent, and precise reclining movement for enhanced patient comfort during procedures.

SKD Swift

180° Fully Reclining Backrest

Smooth reclining movement allows the chair to adjust up to a full horizontal position for optimal treatment comfort.

Multifunction Foot Control

Provides precise, effortless control of chair and instrument functions for improved clinical efficiency.

SKD Stylus

24V ultra-quiet DC motor, ensuring smooth, stable, and noise-free chair movement.	Integrated LED X-ray film viewer for immediate diagnostics.
Removable and movable ceramic spittoon, designed for superior hygiene and effortless maintenance.	Ergonomic operator stool with height and backrest adjustment.
6-LED sensor operating light with dual intensity control, delivering consistent and shadow-free illumination.	Assistant module with extended tray, equipped with: - High & low suction system with filtration 3-way syringe
Automated spittoon flush and cup filler, operated via responsive feather-touch controls.	Expanded instrument tray with air-lock mechanism, featuring integrated control panel with:
Multi-axis articulated headrest for accurate patient positioning and ergonomic support.	3 programmable positions 3 airotor outlets 1 additional auxiliary outlet 3-way syringe
Integrated floor box unit with water & air filtration system.	

SKD Superb

24V low-noise DC motor for smooth and controlled positioning.	Robust and efficient dental chair system engineered for consistent clinical performance in high-usage environments.
Movable Tempered glass spittoon, resistant to wear and easy to maintain.	Expanded instrument tray with air-lock mechanism, featuring integrated control panel with: - Auto Spit & Exit position programme 3 airotor outlets 1 additional auxiliary outlet 3-way syringe
Sensor-based LED operating light with adjustable intensity for precise illumination.	Multifunctional foot control for easy operation of chair
Assistant module with extended tray, equipped with: - High & low suction system with filtration 3-way syringe	Adjustable articulated headrest for enhanced patient comfort and stability.
Automatic spittoon rinse and cup filling system, controlled via feather-touch interface.	Built-in LED X-ray viewer for convenience during procedures.
Operator stool with height adjustment.	

SKD Swift

24V silent DC motor ensuring steady and precise chair movements.	Dentist stool with height adjustment.
Integrated LED X-ray film viewer.	Articulated headrest designed for flexible patient positioning.
4 sensor LED's with adjustable, intensity control shadow-free illumination	Instrument tray with air-lock mechanism, featuring: 2 airotor outlets 1 auxiliary outlet 3-way syringe
Tempered glass movable spittoon for durability and hygiene	
Assistant side large tray, equipped with: - Low pneumatic suction with filtration 3-way syringe	Multifunctional foot control for easy operation of chair

Premium Upholstery Colour Selection

Available in a variety of elegant, durable, and easy-to-maintain upholstery colours to match your clinic's interior design.

Available in multiple shades

Style#1 Diamond

Style#2 Horizontal

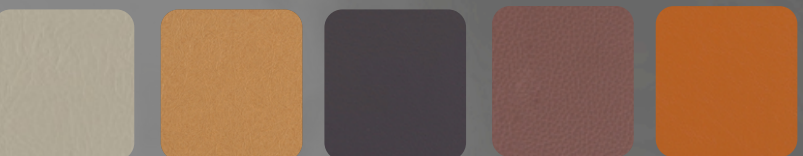

Style#3 Vertical

PREMIUM MEDICAL-GRADE UPHOLSTERY

Soft-touch medical upholstery designed for comfort and durability.

- Easy Clean
- Antibacterial
- Stain Resistant
- Durable

Actual colours may vary slightly depending on printing and lighting conditions.

High-Performance Compressors

Reliable, Quiet, and Oil-Free Dental Air Compressors for Your Practice

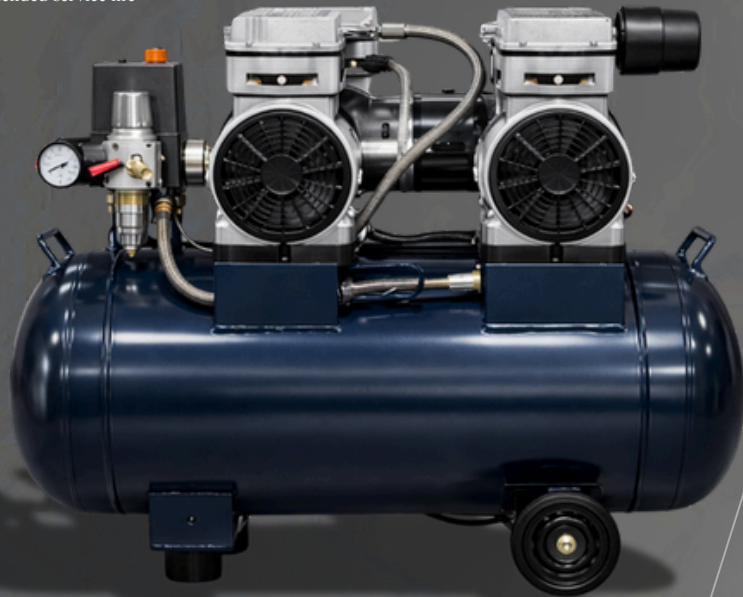

Power Supply: 220V / 50Hz
for stable and efficient operation

High-Performance Motor
designed to deliver consistent air pressure for dental equipment

70-Liter medical-grade tank
for stable and efficient operation

Heavy-Duty 1.5 / 2 HP Motor
2 motors with copper winding for heavy-duty continuous and demanding operation

Anti-Corrosion Tank Coating
Internal anti-rust treatment ensures long-lasting protection and extended service life

45-Liter Heavy-Duty Air Tank
heavy-duty steel tank constructed with thick gauge material for enhanced durability and safety

Noise-Free Heavy-Duty Motor
crafted for whisper-quiet operation, enhancing clinical comfort, with a precision-built, heat-resistant copper-winding motor at its core.

Reliable Air Delivery System
designed for consistent and smooth compressor performance

35-Liter Heavy-Duty Air Tank
constructed from thick-gauge steel for enhanced durability and operational safety

Noise-Reduction Metal Enclosure
designed with a protective metal sheet cover to minimize operating noise and ensure a quieter clinical environment

Copper Motor Winding
High-quality copper wiring reduces heat generation and improves load-handling efficiency

High-Performance Dental Suction Systems

Silent Operation, Consistent Vacuum, and Uninterrupted Clinical Performance
